WANTED:

CLOUD INFRASTRUCTURE DEVELOPER (F/M)

The early bird... starts working for Testbirds!

Since 2011 Testbirds has been a pioneer in the crowd- and cloud based testing of apps, web applications, wearables and Internet of Things applications. With the support of 85 employees and 200,000 testers globally we are successfully conquering this rapidly growing international market. If you are looking for an exciting start-up environment, this job is for you!

Your Tasks

- You are working with our TestChameleon™ which is a service that enables software testing with virtual machines (VM)
- You are taking our awesome Cloud-testing solutions to the next level
- You are responsible for improving and extending the functionalities of this innovative technology for testing on VM even further
- You help us and our clients integrate their existing testing infrastructure to use our services

Your Qualification

- You love to design cloud infrastructures
- You are an expert on virtualization and server networking
- You are familiar with software development in Java

You get extra points if:

- You know network virtualization approaches like VPNs or SDNs
- You have experience with operating system internals of common desktop operating systems
- You are familiar with the Spring and Hibernate or similar stacks

We are offering

- A permanent position based in the heart of Munich
- Flat hierarchy: you are responsible for your work and you can implement your own ideas
- Development possibilities through a variety of internal and external training opportunities
- An open culture, uncomplicated togetherness and joy of shared successes
- A great work atmosphere with a lot of team activities, foosball tournaments, weekly breakfasts and all the coffee/soft drinks you can drink

Testbirds

Are you convinced to become our next Bird?
If yes, please use our application form to submit your cover letter and current CV (in English), as well as work certificates/samples of your work. Don't forget to include your salary expectations and your earliest start date. Your contact person is Sophia (jobs@testbirds.de).
