

WANTED:

FRONTEND DEVELOPER (F/M)

The early bird... starts working for Testbirds!

Since 2011 Testbirds has been a pioneer in the crowd- and cloud based testing of apps, web applications, wearables and Internet of Things applications. With the support of 85 employees and 200,000 testers globally we are successfully conquering this rapidly growing international market. If you are looking for an exciting start-up environment, this job is for you!

Your Tasks

- Developing and building frontend apps is your passion and we would like you to do this with solid and up to date technologies
- Our whole development team is looking forward to work with you, from Backend to UX to build interactive interfaces for our backend services
- You maintain and improve the current codebase, contribute and come up with great innovative solutions and future developments

Your Qualification

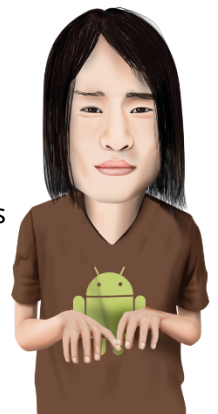

- While you studied IT, Media, Computer Science or something equivalent you found real love for programming
- At least 3 year of experience working as a passionate frontend developer would be appreciated
- You have good knowledge of JS libraries like jQuery, Backbone and vanilla JavaScript
- AngularJS or libraries or frameworks like React or Ember – if you have experience with any of those it is a big plus
- To work with LESS or SASS as well as to manage and build projects based on Bootstrap is no problem for you

You get extra points for:

- A strong interest in Typescript, Webpack, AngularJS 2, NodeJS

We are offering

- A permanent position based in the heart of Munich near the Theresienwiese
- Flat hierarchy: you are responsible for your work and you can implement your own ideas
- Development possibilities through a variety of internal and external training opportunities
- An open culture, uncomplicated togetherness and joy of shared successes
- A great work atmosphere with a lot of team activities, football tournaments, weekly breakfasts and all the coffee/soft drinks you can drink

Testbirds

Are you convinced to become our next Bird?

If yes, please use our [application form](#) to submit your cover letter and current CV, as well as work certificates/samples of your work. Don't forget to include your salary expectations and your earliest start date. Your contact person is Christine (jobs@testbirds.de).
