

# WANTED:

## JAVA DEVELOPER (F/M)

### The early bird... starts working for Testbirds!

Since 2011 Testbirds has been a pioneer in the crowd- and cloud based testing of apps, web applications, wearables and Internet of Things applications. With the support of 85 employees and 200,000 testers globally we are successfully conquering this rapidly growing international market. If you are looking for an exciting start-up environment, this job is for you!

#### Your Tasks

- Our TestChameleon™ is waiting for you to work on it and develop the service that enables software testing with virtual machines (VM)
- We trust you to take our awesome cloud-testing solutions to the next level
- You bring in your passion for Java and take over the responsibility for improving and extending the functionalities of this innovative technology for testing on VM even further
- To use our services you help our clients to integrate their existing testing infrastructure

#### Your Qualification

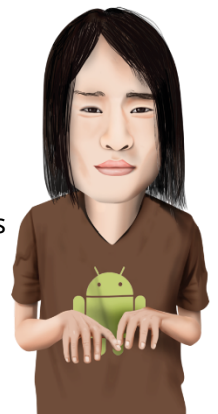

- To design large distributed systems makes you happy
- Java, Hibernate, Spring are known words to you (maybe other similar technology stacks) and you bring some experience in
- You have been working with Linux and you still love it

#### You get extra points for:

- Experience RESTful Webservices
- Knowledge about virtual machines or docker
- Awareness of Selenium and other testing frameworks like Appium
- Configuration of network components such as VPNs and firewalls

### We are offering

- A permanent position based in the heart of Munich
- Flat hierarchy: you are responsible for your work and you can implement your own ideas
- Development possibilities through a variety of internal and external training opportunities
- An open culture, uncomplicated togetherness and joy of shared successes
- A great work atmosphere with a lot of team activities, foosball tournaments, weekly breakfasts and all the coffee/soft drinks you can drink

**Testbirds**

#### Are you convinced to become our next Bird?

If yes, please use our [application form](#) to submit your cover letter and current CV (in English), as well as work certificates/samples of your work. Don't forget to include your salary expectations and your earliest start date. Your contact person is Sophia ([jobs@testbirds.de](mailto:jobs@testbirds.de)).
