Philipp Benkler

Managing Director

Philipp Benkler is one of the co-founders and CEOs of Testbirds. He is not only responsible for Sales and Investor Relations but also for the company's expansion and internationalization. He studied Business Administration and received a Master of Science with honors degree in 'Finance and Information Management' at the Technical University of Munich and the University of Augsburg. Prior to his role with Testbirds he worked for companies such as GlaxoSmithKline, Siemens and KPMG. Philipp likes spending his free time on boards, whether it's snowboarding in winter or kitesurfing during summer. The rest of the time he's riding his Moto Guzzi motorcycle through the Bavarian Alps or enjoying a nice BBQ with friends.

Georg Hansbauer

Managing Director

Georg Hansbauer is one of the co-founders and CEOs of Testbirds. His position encompasses the finance and quality assurance of Testbirds as well as the development of services and IT infrastructure. He studied 'Information Systems' at the University of Passau, followed by a Master's program in 'Finance and Information Management' at The Technical University of Munich and the University of Augsburg. Prior to his engagement with Testbirds, he gained vast experience in various large corporations such as SAP, BMW of North America and Volkswagen Consulting. There he led several projects in the field of enterprise software testing. Georg is a big fan of classic cars and curvy country roads. He can often be found driving through the Alps in his '72 ALfa Romeo Giulia 1300 Super TI.

Markus Steinhauser

Head of Operations

Markus Steinhauser is one of the co-founders of Testbirds. He is responsible for Corporate Communication, Marketing and Tester Community Development. Markus has expert know-how about the media industry and crowdsourcing. He studied Media & Communications in the Swiss city of Fribourg and in the US. He previously worked as an independent journalist for a daily newspaper. Markus is a big fan of Australia, sports, and vegetarian food.
